FROM: San Joaquin County  
Department of Public Works  
1810 East Hazelton Avenue  
Stockton, California 95205

County Clerk  
County of San Joaquin California  
44 North San Joaquin Street, Suite 260  
Stockton, California 95202

Project Title: East Country Club Resurfacing 2025

Project Location: See attached vicinity map

Description of Nature, Purpose, and Beneficiaries: See attached project description

Public Agency Approving Project: San Joaquin County Public Works Department

Name of Agency Carrying Out Project: San Joaquin County Public Works Department

This is to advise that the San Joaquin County Public Works Department has approved the above described project on 4/4/2025 and has made the determination that the project is exempt due to the following:

Exempt Status (check one):

- Ministerial (Sec. 21080 (b) (1); 15268)
- Declared Emergency (Sec. 21080 (b) (3); 15269(a))
- Emergency Project (Sec. 21080 (B) (4); 15269(b) (c))
- Categorical Exemption: Existing Facilities (Sec. 15301 (c))
- Statutory Exemption (Sec. 15282(l))

Reason(s) why project is exempt: The project will repair existing roads and will not result in any major alterations to the configuration of the roads. No additional vehicle travel lanes will be constructed.

Lead Agency Contact Person: Marilissa Loera, Senior Planner, (209) 468-3085

Signature:  Title: Senior Planner Date: 4/9/2025

# EAST COUNTRY CLUB RESURFACING 2025

## Project Description

### Project Location:

Del Rio Drive; Delaware, Dennis, Hogue, and Nina Avenues (Plymouth Road to Stockton City Limit; La Jolla Drive to North End). **See attached Vicinity Map.**

### Project Justification:

Del Rio Drive was part of the Mission Village No. 3 subdivision construction in 1954. Delaware, Dennis, Hogue, and Nina Avenues were part of the Mission Village No. 4 subdivision construction in 1954. The roadways of Mission Village were constructed 28 feet wide with curb, gutter, and sidewalk. The roads were periodically maintained by County Road Maintenance with occasional repairs as well as being part of a cyclical seven-year Slurry Seal Program beginning in 1981. Records show Dennis Avenue was resurfaced in 1972 with 0.08 feet thick of asphalt concrete. Delaware, Dennis, Hogue, and Nina Avenues were slurry sealed as part of the East Country Club Reconstruction, Phase 1 project.

All roadways have high percentage of alligator, longitudinal, transverse, and block cracking with rutting in the wheel paths. Failed areas of existing curb, gutter, and sidewalk with more than 0.08-foot vertical separation are scattered throughout the project limits.

### Scope of Work:

The project will consist of:

1. Cold planing existing roadway (28 feet wide) to a depth of 0.25 feet and place 0.25 feet of Hot Mix Asphalt (HMA) (Type A).
2. Repairing all structural failure areas with full depth 0.50 feet of HMA (Type A).
3. Adjusting frames and covers to finish grade.
4. Removing and replacing approximately 517 linear feet of failed curb, gutter, and sidewalk.
5. Removing all part-circle culverts, driveway pipes, and steel plates in gutter.

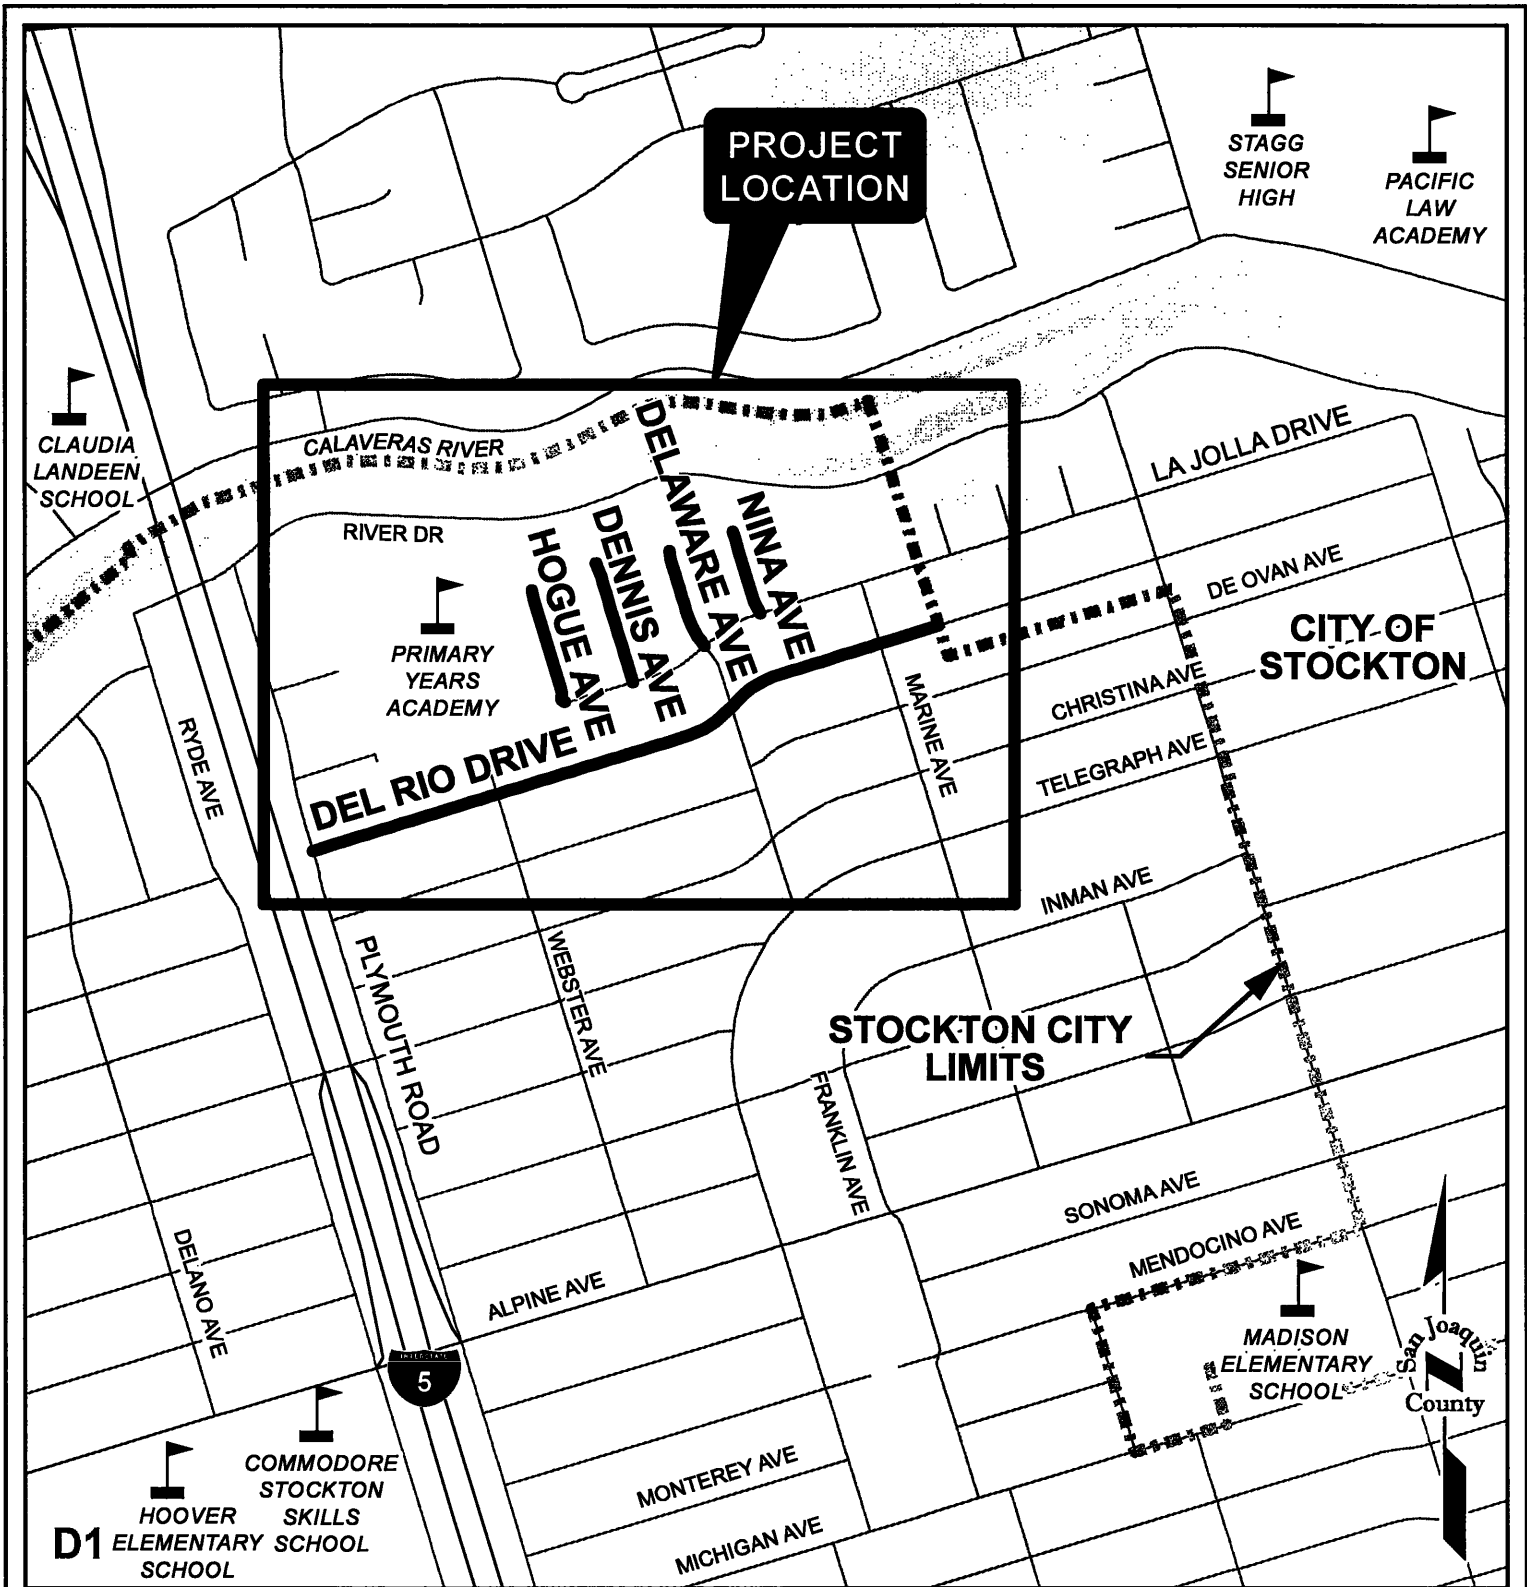

### Environmental Setting:

In these portions of the San Joaquin County, land usage is primarily **residential with single family homes.**

**There are many large trees adjacent to the project area.** Nesting and migratory birds, protected by the Migratory Bird Treaty Act, may nest within these trees. Furthermore, the Swainson's Hawk, a raptor species of concern within the State of California and listed as threatened may nest adjacent to or within the project area. A pre-construction survey for nesting Swainson's Hawks and other migratory birds is recommended if construction is scheduled to occur from February 15<sup>th</sup> to September 1<sup>st</sup>.

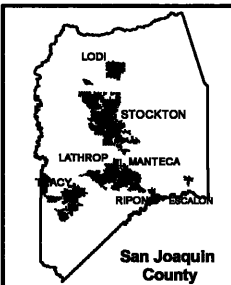

### Beneficiaries:

The public will see increased safety and fewer hazards with these well-maintained roads. Overall, there will be reduced maintenance concerns and more reliability within the project area.
