SUBJECT: CRACK SEAL 2025

Dear Resident:

The San Joaquin County (County) Department of Public Works is pleased to announce an upcoming project to crack seal approximately 35 miles of existing roadways throughout the County with crack treatment material (Project). The enclosed Vicinity Map(s) show the streets that will be treated in your area. Construction is scheduled to commence on or around April 7, 2025, and is expected to be completed in about ten weeks, weather permitting.

Additionally, parking and driveway access may be restricted during construction activities; however, full access will be available at night. We understand that construction can be disruptive, and we value your patience and cooperation as we endeavor to complete the Project as efficiently as possible.

For inquiries regarding the Project, please contact me at (209) 468-3039 or by email at dsaldana@sjgov.org.

Sincerely,

Daniel Saldana
