Emergency Management Concepts (EMC): In moments of crisis, your participation may be vital to your community in supporting a coordinated emergency response effort. Join us to learn essential emergency management concepts and enhance your skills to effectively work in a Local, Operational Area, Regional, or State Emergency Operations Center (EOC). Throughout this course, we will explore fundamental principles that will help you master EOC operations. Participants will engage in hands-on learning through progressive tabletop exercises and functional simulations, equipping them with vital skills and strategies.

Course Benefits:

- Enhance your EOC capabilities under realistic scenario simulations.
- Network with other emergency management professionals.
- Earn a certificate which fulfills the requirements of G191-ICS/EOC Interface Workshop and G775-EOC Management and Operations.
- Completes one of four key courses for the Cal OES Emergency Management Specialist Certificate.

Provides participants with:

- Operational skills in crisis management, decision-making, and effective communication.
- Ability to protect lives and property during disasters.
- Builds confidence and ability to act decisively in critical situations, making participants better prepared to handle unforeseen events.

Prerequisites:

» ***(Please ensure you have completed the latest revision of these courses before registration):***

- G606 SEMS - [Available Online Here](#), IS-100, IS-200, IS-700, and IS-800
- or
- G606 SEMS, IS-100, IS-700, IS-800 and IS-2200

Course Length: 32 hours
Course Code: EMC-12-24
CA Approval: CA-040-RESP
