

EMS Policy No. 7012, Disaster Control Facility Designation
 45 Day Public Comment Period
 October 4., 2024 to November 18, 2024

SECTION # PAGE #	ORGANIZATION	COMMENT	RESPONSE
EMS Policy No. 7012	Steven Islas Stockton Fire Department	<p>Not included in SJEMSA Policy proposals for 3101 and 7012: Addressing cost/charge per call limitations.</p> <p>Comments/Concerns: This issue is not addressed in either policy update proposal. There are concerns as this is a policy that gives exclusive service and billing rights to a single entity.</p> <p>Is there a cap to the charges this sole provider can charge?</p> <p>What is the expectation of cost recovery and charge-per-call increases?</p> <p>What is the expectation for billing cycles for the ambulance service provider?</p>	Concerns regarding cost recovery will be addressed in the RFP.
Ems Policy No. 7012, Procedure	Brian Hajik American Medical Response	Additional requirements for a dispatcher/dispatch center requires additional training and ongoing responsibility to perform these functions, are there any up front and ongoing funding support?	Concerns regarding cost recovery will be addressed in the RFP.
Ems Policy No. 7012, I	Jonathan Mendoza SSJCFA	Policy 7012 Section I. B. Comment: consider changing language to “Provide Patient Destination options to Medical Branch/Group Supervisor in accordance with SJCESMA...” In line with draft Policy No.7011, it is the MGS who shall make individual patient destination decisions based upon DCF bed availability information. As written, it could be misleading that the DCF is making these decisions.	Clarity will be made in the final version.
