# ABLS

Emergency care  
for burn injury

## Advanced Burn Life Support Provider Course (ABLS)

Advanced Burn Life Support (ABLS) provides knowledge for immediate care of the adult and pediatric burn patients in the critical first 24-hours post-injury. Taught by the staff from Shriners Children's Northern California and UC Davis Firefighters Burn Institute Regional Burn Center, including Attending Surgeons and Burn Center Directors, this live, 7-hour course includes didactic lectures, small group case studies and simulation sessions and a written and practical hands-on exam.

Course objectives:

- Describe the magnitude and severity of the burn injury to identify and establish priorities of treatment.
- Assess and stabilize patients with burn injuries during the first critical hours post-injury.
- Manage the airway and support ventilation. Initiate, and monitor fluid resuscitation. Apply correct methods of physiological monitoring.
- Determine appropriate transfer to a burn center. Organize and conduct the interhospital transfer of a seriously injured burn patient.
- Disaster management.

*If you are interested in this class but are unable to make the currently scheduled days let us know! More classes may be scheduled.*

For more information or to register please contact **Lauren Spink** at [lspink@ucdavis.edu](mailto:lspink@ucdavis.edu).
