Please be advised that the San Joaquin County Environmental Health Department (EHD) received and approved a Transfer Processing Report (TPR) amendment to the Solid Waste Facility Permit for the Lovelace Transfer Station. The EHD is the Solid Waste Local Enforcement Agency (LEA) for this facility. The LEA is certified by the California Department of Resources Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste sites in San Joaquin County.

Description of Project and LEA's Determination

Lovelace Transfer Station is a 15-acre existing transfer station located at 2323 Lovelace Road west of Union Road, north of Manteca. On September 13, 2024, the LEA received a Solid Waste Facility Permit package from the San Joaquin County Department of Public Works applying for a TPR amendment.

The amendment proposes re-organizing stalls on the self-haul side to allow the smaller self-haul dump trailers to avoid the need to be directed to the commercial side during peak hours and the white goods to be processed either at the south end of the floor or outside in the south area utilized for metal recovery.

The purpose of these changes is to improve overall efficiency and safety of staff.

The EHD finds that the proposed change is exempt from the requirements of California Environmental Quality Act (CEQA), is consistent with the State Minimum Standards for Transfer/Processing Facilities and does not conflict with the terms and conditions of the SWFP. The EHD approved the amendment on September 23, 2024.

Where a copy of the application can be reviewed

A copy of the approved application for the TPR amendment is available for public review by appointment at the San Joaquin County Environmental Health Department offices located at 1868 E. Hazelton Ave., Stockton, CA 95205.
