----------	--	---

As part of the budget process, all Environmental Health Department (EHD) fees are reviewed and evaluated to ensure revenues generated from fees are appropriate and sufficient to meet the expected costs of each program. This ongoing evaluation process is especially important as many EHD program requirements are constantly changing with the passage of new laws, regulations and policies.

In 1990, the Board of Supervisors passed Resolution B-90-620, which endorsed a policy of full cost recovery for the EHD. As such, all EHD fees are evaluated and adjustments proposed in order to meet this goal. For fiscal year 2025-2026, fee increases in programs and the EHD Hourly Rate are proposed to offset program costs. These fee increases do not achieve the goal of full cost recovery for the programs, but are meant to close the gap between program revenues and net county costs in a progressive, incremental process.

A meeting has been scheduled at the date, time, and location noted above to discuss the fee proposals with facility owners/operators, contractors, consultants, and members of the general public. **The proposed fee changes are provided on the back side of this notice.** This meeting is informational and your attendance at this meeting is **not** mandatory.

This opportunity for public and industry comment is being provided in preparation for the public fee hearing in the Board Chambers of the County Administration Building, 44 North San Joaquin Street, Stockton, California. Tuesday, May 13, 2025, has been set for the 2025-2026 Proposed Budget presentation and Fee Hearing to the Board of Supervisors. If the Proposed Budget is approved by the Board, a Final Budget Hearing will be conducted on Tuesday, June 3, 2025.

Please contact Yvonne Moreno if you plan to attend and Jeff Carruesco if you have any questions or comments regarding the proposed fees or the workshop. Contact information is provided above. Thank you for your interest and assistance.

As part of the budget process, all Environmental Health Department (EHD) fees are reviewed and evaluated to ensure revenues generated from fees are appropriate and sufficient to meet the expected costs of each program. This ongoing evaluation process is especially important as many EHD program requirements are constantly changing with the passage of new laws, regulations and policies.

In 1990, the Board of Supervisors passed Resolution B-90-620, which endorsed a policy of full cost recovery for the EHD. As such, all EHD fees are evaluated and adjustments proposed in order to meet this goal. For fiscal year 2025-26, fee increases in programs and the EHD Hourly Rate are proposed to offset program costs. These fee increases do not achieve the goal of full cost recovery for the programs, but are meant to close the gap between program revenues and net county costs in a progressive, incremental process.

As part of the budget process, all Environmental Health Department (EHD) fees are reviewed and evaluated to ensure revenues generated from fees are appropriate and sufficient to meet the expected costs of each program. This ongoing evaluation process is especially important as many EHD program requirements are constantly changing with the passage of new laws, regulations, and policies.

In 1990, the Board of Supervisors passed Resolution B-90-620, which endorsed a policy of full cost recovery for the EHD. As such, all EHD fees are evaluated and adjustments proposed in order to meet this goal. For fiscal year 2025-2026, fee increases in programs and the EHD Hourly Rate are proposed to offset program costs. These fee increases do not achieve the goal of full cost recovery for the programs, but are meant to close the gap between program revenues and net county costs in a progressive, incremental process.

A meeting has been scheduled at the date, time, and location noted above to discuss the fee proposals with facility owners/operators, contractors, consultants, and members of the general public. **The proposed fee changes are provided on the back side of this notice.** This meeting is informational and your attendance at this meeting is **not** mandatory.

This opportunity for public and industry comment is being provided in preparation for the public fee hearing in the Board Chambers of the County Administration Building, 44 North San Joaquin Street, Stockton, California. Tuesday, May 13, 2025, has been set for the 2025-2026 Proposed Budget presentation and Fee Hearing to the Board of Supervisors. If the Proposed Budget is approved by the Board, a Final Budget Hearing will be conducted on Tuesday, June 3, 2025.

Please contact Cheryl Field if you plan to attend and Natalia Subbotnikova if you have any questions or comments regarding the proposed fees or the workshop. Contact information is provided above. Thank you for your interest and assistance.
