Project Description:

The San Joaquin County Department of Public Works (SJCDPW) will be soliciting proposals from civil/transportation consulting engineering and planning firms for the Airport Way Precise Plan (Plan). This Plan will focus on establishing the ultimate configuration of Airport Way between the City of Stockton limits at French Camp Road and the City of Manteca limits south at Roth Road that is necessary to serve future travel demands in south San Joaquin County. Alternatives considered by the Plan will continue to facilitate industrial operations, including truck traffic, on and near the corridor and evaluate bicycle facilities for continuity with adjacent City planning. The requested services will include public outreach, existing conditions analysis, and proposing transportation alternatives.

The Plan's study area is located in unincorporated San Joaquin County. Portion of the study area may be included in long-range City planning documents. A successful Plan will assess future impacts to both City of Stockton and Manteca.

Services Needed:

- Comprehensive data collection
- Traffic and Operations analysis
- Safety Analysis
- Right of Way studies
- Alternative analysis
- Extensive stakeholder outreach/meetings

Projected Solicitation Start Date: Late February/Early March 2025
