

STATEWIDE FLOOD EMERGENCY RESPONSE ROUND 3 PROJECT

For more information, contact Chris Boyer at (209) 468-9360 or electronically at cboyer@sjgov.org.

Project Description

The San Joaquin County Public Works Department (County) is seeking a qualified consultant to assist the County with the implementation of the Statewide Flood Emergency Response Round 3 Project (Project). The Project consists of planning, preparing, designing and implementing the following: 1) Flood Automated Local Evaluation in Real Time (ALERT) System Training; 2) Inundation Mapping; 3) Locate, Procure, and Install ALERT Rain/Stream Gages; 4) Countywide Flood Fight Resource Stockpiles and Containers; and, 5) Standardized Emergency Management System/National Incident Management System (SEMS/NIMS) Training; 6) Assist with the Integration of Flood Operations Delta Decision Support System by Gathering GIS Data; 7) Program Administration.

Request for Proposal Release: October/November 2024
